Objective

Software Developer with knowledge in Python and Java. Currently pursuing an MCA and have hands-on experience through web projects and internships in building scalable applications using technologies like Flask, React.js, PostgreSQL, and Docker. Proficient in cloud and DevOps tools including AWS, Jenkins, Git, Linux, and Shell Scripting. Passionate about solving real-world problems and continuously learning through real-time projects, automation tools, and clean coding practices. I am eager to work in a challenging environment.

Technical Skills

- **Programming Languages:** Python, Java, JavaScript
- **Web Development:** Flask, HTML, CSS, Bootstrap
- **Database:** MySQL, PostgreSQL
- **Version Control:** Git, Jenkins, Docker
- **Tools:** Linux**,** Shell Scripting, VS Code, Postman, Jupyter Notebook , Eclipse

Experience

Summer Intern – AWS Cloud & DevOps |LinuxWorld Informatics Pvt. Ltd., Jaipur **|** Jun 2025 – Jul 2025 (45 Days)
- Completed a 45-day AWS Cloud and DevOps internship under CTO Mr. Vimal Daga.
- Gained hands-on experience deploying and managing cloud infrastructure with AWS.
- Worked with Docker, Kubernetes, Jenkins, Git.
- Built CI/CD pipelines, automated deployments, and practiced IaC in real-time.

Projects

Python Communication Automation Suite – Multi-Channel Automation Tool | Python Flask, Twilio, APIs
- Developed a menu-driven tool to automate tasks like sending emails, SMS, WhatsApp messages, and phone calls.
- Integrated LinkedIn, Twitter, Facebook, and Instagram APIs to enable seamless cross-platform social media posting.
- Ensured secure API handling, error management, and modular design for easy scalability.

Transcript Summarizer- Web-Based Text Summarization Tool | Python, Huggin face, NLP
- Designed and implemented algorithms to analyse and generate concise summaries from large text transcripts.
- Developed an interactive and user-friendly web interface using modern frontend technologies.

Kisan Kart- Full-Stack E-commerce Platform for Agricultural Products | React.JS, Java, Sprintboot, MySQL
- Developed a comprehensive e-commerce web application tailored for agricultural products.
- Implemented key features such as product listing, shopping cart, admin controls, and user authentication.
- Built a responsive user interface and integrated RESTful APIs for smooth frontend-backend communication.

Education

Thakur Institute of Management Studies, Career Development & Research, Mumbai, M.H   September 2024 – Present
Master of Computer Applications

GLS University – Ahmedabad, Gujarat   July 2020 - May 2023
Bachelor of Science in Information Technology

Certifications and Achievements

- **5 Star in python on hacker rank**
- **Responsive Web Design** – FreeCodeCamp.org
- **JavaScript Algorithms and Data Structures** – FreeCodeCamp.org
- **Introduction to Front-End Development** – Meta, Coursera

Hobbies & Interests

- Playing Chess
- Listening to Music
- Video Gaming
